October retail inflation falls to 3.31%, September IIP declines

Mumbai:
India's October retail inflation went down to 3.31 per cent, while industrial output growth slipped to 4.5 per cent in September from a rise of 4.66 per cent in August. All data shown on Monday.

As per the data released by the Central Statistics Office (CSO), the Consumer Price Index (CPI) eased to 3.31 per cent from a rise of 3.70 per cent in September.

The slow down in CPI was attributed to lower food prices, as the Consumer Food Price Index (CFPI) deflated (-) 0.86 per cent in October from an expansion of 0.51 per cent in September 2018.

On a year-on-year (YoY) basis, the retail inflation in October 2018 was lower than in the corresponding period of last year. It had stood at 4.5 per cent in October 2017.

Category-wise, prices of milk-based products, eggs, meat and fish pushed the retail inflation higher on a YoY basis.

In contrast, deflation in the cost of vegetables, pulses and sugar capped the overall food prices.

Among non-food categories, the fuel and light segment's inflation rate accelerated to 8.55 per cent in October.

On the other hand, India's industrial output growth slipped to 4.5 per cent in September from a 4.66 per cent rise in August.

The data released by the Ministry of Statistics and Programme Implementation showed that the Index of Industrial Production (IIP) eased to 104.8 per cent in September 2018 over the corresponding period of the previous year stands at 5.1 per cent.

Quick Estimates of IIP released in October showed that the cumulative growth for the period April-September 2018 over the corresponding period of the previous year stands at 5.1 per cent.

The index of industrial production accelerated in September, 2018, mainly pulled up by strong performance in manufacturing, electricity, infrastructure or construction and consumer durables.

Electricity generation increased by 8.2 per cent.

Among the six user-based classification groups, the output of primary goods which has the highest weightage of 40.4 grew by 5.6 per cent. The output of intermediate goods which has the second highest weightage, inch ed up by 1.4 per cent.

In addition, infrastructure or construction goods output increased by 9.5 per cent and that of consumer goods by 5.2 per cent.

"We expect the IIP numbers to improve for the month of October 2018 vis-a-vis festive demand," Talwar was quoted as saying in a statement.

India's domestic air passenger traffic grew in double digits for the 49th consecutive month in September, a global airline association said on Monday.

According to the International Air Transport Association (IATA) said India's domestic air passenger volume measured in revenue passenger kilometres (RPK) was highest among major aviation markets like Australia, Brazil, China, Japan, Russia and the US. As per the data, India's domestic RPK in the month under review rose 19.8 per cent compared to the corresponding month in 2017.

India's domestic passenger traffic growth was followed by that of the Russian Federation at 11.1 per cent and China at 9.3 per cent. In terms of capacity, India's domestic available seat kilometres (ASK) - which measures available passenger capacity - was higher by 18.8 per cent in September, that of China's 10.3 per cent and the US saw a 8.6 per cent rise.

IT minister discusses data sovereignty with USIBC

New Delhi,

Union IT Minister Ravi Shankar Prasad on Monday discussed data sovereignty and privacy along with other issues with Nisha Biswal, President of US India Business Council (USIBC), a government official said. The minister also noted that "democratic countries including the US and India need to work together on both the opportunities and challenges emerging from the digital world."

"The issues of net neutrality, the need for recognising the rising urge for data sovereignty of the people were taken up and she (Biswal) agreed for discussion on these issues," the official said.

The meeting also had a discussion on the H1B visa issue and the minister was of the opinion that the US needs to take a more pragmatic approach must be on the value addition that Indian IT professionals and companies have made to the US. Further, regarding the ongoing US-China trade tension, the USIBC President was of the view that it may open up opportunities for India as American companies may be forced to relocate from China to other countries.
