State of Economy-VI: Booster investment dosage needed to fire-up slacking consumption

By Rohit Vaid

Mumbai,

A booster dose of government and private sector spending along with cheaper rates of finance are required to kick-start India's consumption driven demand, industry observers opined.

"Consumption is likely to decline in the over all economic growth as expected to decline on the back of slackening consumption due to farm distress, global headwinds and stagnating wages. These have cumulatively hampered sales, thereby restricting production and as a result stalled

job creation.

Furthermore, the slowdown has become evident in sectors such as automobile, FMCG and aviation.

"Consumption in India

has slowed due to several factors, including low rural demand reflected in low rural wage growth and declining levels of global food prices for a protracted period keeping a lid on consumption," said Soumya Kanti Ghosh, Group Chief Economic Adviser SBI.

"Besides, private investments are not forthcoming, so public investment should

continue to keep pace, which looks difficult given the current fiscal constraints. Therefore monetary policy should do heavy lifting as fiscal policy is constrained."

Lates economic indicators, including Index of Eight Core Industrial Index and Industrial Production and inflation data have shown a worsening trend which industry observers fear will continue. A case in point is the automobile off-take data. In April, car sales which indicate urban and semi-urban demand declined 19.9 per cent to 160,279 units.

In the commercial ve-

hicle segment, which is the key indicator of economic activity, domestic sales went down by 5.9 per cent to 68,680 units last month.

Similarly, overall sales of two-wheeler, which include scooters, motorcycles and mopeds, edged lower by 16.36 per cent to 1,638,388 units.

Similarly, the country's factory output has also slipped. In March, it declined to over a 20-month low as the output rate of the manufacturing sector fell 1.04 per cent from a year-on-year (YoY) rise of 5.7 per cent. Recently, State Bank of India's Economic Research Department in a report said:

"In Q4FY19, of 384 companies surveyed by the Central Statistics Office, 330 companies exhibited positive growth in mid-line and bottom-line." Perhaps, significantly depressed rural prices is disturbing rural income and weak demand is affecting the FMCG sector."

WESTERN RAILWAY-AHMEDABAD DIVISION
